PERSONAL PROFILE

I am a Software Developer deeply passionate about software development and software security. I completed the Creative Computing bachelor program at Sankt Pölten University of Applied Sciences and I am presently employed in the software development industry. I am dedicated to staying informed about the latest technological advancements and industry trends, while also enhancing my technical knowledge and industry-specific expertise. My dedication to excellence drives me to contribute effectively to the dynamic landscape of software development.

WORK EXPERINCE

CODING CO-INSTRUCTOR
Elite Coding Academy , Cairo | 09/2018 - 08/2020

- Taught foundational web development skills, including HTML, CSS, and JavaScript

- Instructed and guided over 50 students in coding, resulting in 80% of students achieving the highest possible grade.

FRONT END DEVELOPER
ICTeam , Cairo | 09/2020 - 02/2021

- Developed and maintained several websites, ensuring that they met all requirements and specifications.

- Implemented responsive design to ensure that websites functioned effectively on a range of devices.

- Successfully delivered two key projects within tight deadlines and to the satisfaction of the clients.

SOFTWARE DEVELOPER
BOC Group , Vienna | 06/2022 - Current

- Design and implement innovative features for our business process management software, using modern web technologies such as Java, React, Redux, and Primereact.

- Ensure the reliability and stability of software solutions by resolving software issues and bugs through comprehensive troubleshooting and debugging processes.

- Enhance software quality and dependability by developing and implementing automated test scenarios using Selenium and Playwright.

- Serve as the security champion, taking a proactive approach to identifying and addressing security vulnerabilities, while also conducting regular security assessments.
